Young Scholars Workshop on Platformcoops
Utrecht, 9 December 2019

‘Governing the platform: Self-help, mutual aid, and cooperativism’

Deadline: 25 October

The organizers of the 2019 Young Scholars Workshop on Platformcoops of the Future of Citizen-based Initiatives (FOCI) hub at Utrecht University welcome abstracts (500 words max.) for publishable papers to be presented at this international workshop, to be held in Utrecht, The Netherlands, on 9 December 2019. The meeting will be held in the wonderful historic city center of Utrecht, a major university town in the middle of the Netherlands and will be hosted by the Institutions for Collective Action research team and the FOCI-hub as part of the Strategic Theme Institutions for Open Societies of Utrecht University.

The theme of this workshop, “Governing the platform: Self-help, mutual aid, and cooperativism”, aims to bring together PhD-students with state-of-the-art scientific knowledge on platformcoops as an alternative governance model for the platform economy. Recently, we see new online platforms emerging that take on a substantially different model than the typical Uber or Airbnb. Platform cooperatives such as Loconomics, Fairbnb, and Stocksy United are digitally-mediated organizations that are collectively owned and democratically governed by their users, instead of by external shareholders.

The workshop starts with a keynote by professor Koen Frenken, who is internationally renowned for his expertise on the political economy of platforms. Of course there is plenty of opportunity to exchange tips and tricks with your peers. Two senior-commentators will also read the papers in advance and provide more in-depth comments after your presentation. The workshop ends with reflections from a practitioner. Papers can deal with research questions such as: What is the impact of member group size on the functioning of platformcoops? How do worker-owned platforms relate to the history of worker cooperatives? What legislative obstacles do leaders of platformcoops perceive in different countries? To what extent do social relations between vacation rental hosts and guests differ between cooperative and capitalist platforms? Submissions from various disciplines and contexts, both empirical and conceptual, are welcome.

Below you find a list of keynote speakers, a program overview, submission guidelines, and information on the workshop organizers.
